Rowland Wanderi
Software Developer

I am an aspiring Full-Stack Developer with a background in Software Engineering. I am eager to secure a Full-Stack Developer position to apply my technical skills and gain practical experience in web development.

Experience

March 2024 - Present
Codsoft Solutions ltd | Kolkata, India
Software Developer Intern

- Conducted research to improve understanding of programming languages and tools.
- Engaged in continuous learning opportunities to expand knowledge of the software engineering field.
- Worked on various projects as requested by the clients and delivered on time.
- Participated in daily stand-up meetings to discuss project progress.

Projects

Bandwagon App

This is an e-commerce React application that enables users to purchase band merchandise from the website.

Pet Central App

This is a web-based platform that allows users to explore pet stores, view available pets, leave reviews and manage their account activities seamlessly.
